

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. (currently amended) A fiber reinforced cementitious material comprises:

a ~~conventional~~ cementitious material and

less than 5 pounds per cubic yard of said cementitious material of fibers dispersed therein, the fibers comprising a mixture of a thermoplastic polymer and an organometal compound wherein the metal of said compound being selected from the group consisting of Ti, Si, Zr, Al, and combinations thereof, and said organometal compound comprising less than 10% by weight of said fibers.

2. (original) The fiber reinforced cementitious material of Claim 1 wherein said organometal compound comprises less than 5% by weight of said fibers.

3. (original) The fiber reinforced cementitious material of Claim 1 wherein said organometal compounds being selected from the group consisting of titanates, silanes, zirconates, aluminates, and combinations thereof.

4. (original) The fiber reinforced cementitious material of Claim 1 wherein said organometal compounds being a silane and another organometal compound being selected from the group consisting of titanates, zirconates, aluminates, and combinations thereof.

5. (original) The fiber reinforced cementitious material of Claim 1 wherein said organometal compounds being a silane and a titanate.

6. (original) The fiber reinforced cementitious material of Claim 1 wherein said organometal compounds being a silane and a zirconate.

7. (original) The fiber reinforced cementitious material of Claim 1 wherein said organometal compounds being a silane.

8. (currently amended) The fiber reinforced cementitious material of Claim 1 wherein said thermoplastic polymer being selected from the group consisting of polyolefins, polyesters, nylons, acrylics.

9. (original) The fiber reinforced cementitious material of Claim 8 wherein said thermoplastic polymer being a polypropylene.

10. (original) The fiber reinforced cementitious material of Claim 1 wherein said fiber being a chopped fiber.

11. (original) The fiber reinforced cementitious material of Claim 1 wherein said fibers being randomly dispersed.

12. (original) The fiber reinforced cementitious material of Claim 1 wherein said fibers being dispersed in aligned patterns.

Claims 13 - 37 (canceled).
